spring

They came with the sun of morning, amid its webbed and
wandering goldness

And their song was one of light and promise and spun-threaded
silver dreams.

And with these dreams and whispered hopes

They painted colored windmill days filled of friends and ways of
kindness and quiet

That over and again brought them the comfort of smiles and
sprinkled sunshine

Through their wandered days of search and forgotten days of
aloneness.

And through the timeless searchings and endless thoughts of years
and days

Their minds grew and came to touch

Tomorrows wonderous and unknown and dreams filled with
light.

And came to them slowly a part of Knowledge and
Understanding.

And they turned from their sheltered joy and warmth
To try and reach to those whose lives were spun of darker stuff.
And they painted for the lonely
Tapestries of running melted orange to dapple the days,
And for him who saw only darkness and despair
There were etched songs of golden smiles and lavendered fields of
sea and wind.
And for the bitter they crafted once more the beauty and joy of
life;
And to the sorrowful they showed
The running sunshine of the air and the rainbows of the sun.
And him who was yet dreamless and hopeless
They comforted with the promise of the rising dawns and dreams
and tomorrows yet unborn.

autumn

My greatest inspiration is a challenge to attempt the impossible.

Albert A. Michelson

in dedication

Dr. Thomas Eastman

He was a gifted teacher, a brilliant scientist and a concerned environmentalist; but so are other men. He was more —

His greatness was found within, in those personal qualities which would challenge and inspire all who became associated with him. With the flash of a smile, he made the impossible seem possible. He asked no more than a hundred per cent and never gave any less of himself.

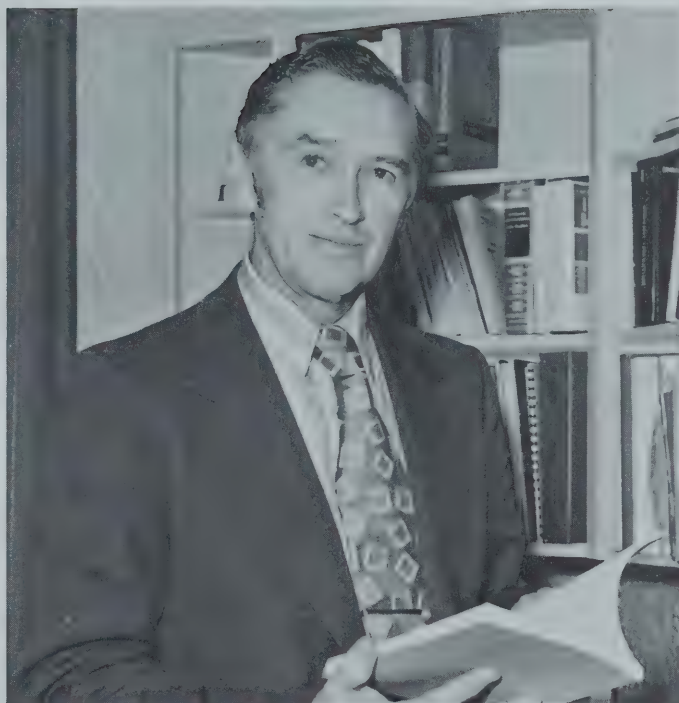

He was the one who not only pointed out the path of undreamed of heights but helped those who followed fight every obstacle on the way up.

Through those of us whom he touched he will live on in the lasting influence he has had on our lives, but in our hearts we will carry the memories not so much of an inspirational leader but of a concerned and compassionate friend.

Many thanks to Annie Donohue!, Edward Chersonson, Joel Baker, Bruce Bonstein, Charlie Cleary and Wayne Robbins for their photographic contributions; and very special thanks to Wendy at Westwood Studios.

Look to this day!
For it is life, the very life of life . . .
For yesterday is already a dream
and tomorrow is only a vision:
But today, well lived, makes every
yesterday
A dream of happiness, and every
tomorrow a vision of hope.
From the Sanskrit

spring

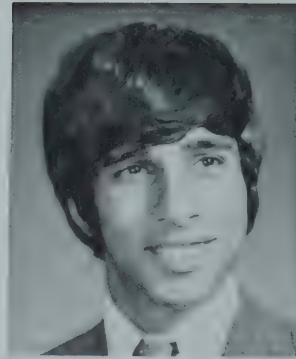

The future does not belong to those who are content with today. . . . Rather it will belong to those who can blend vision, reason, and courage in a personal commitment.

IN MEMORIAM

steven barton

garrett j. cullen

jeffrey wyke

Only that I could not get it well-enough
Always, and so never seeing
Deeper in than where the water
Gives me back in a shining surface picture
Me myself in the summer heaven godlike
Looking out of a wreath of fern and cloud puffs.
Once, when trying with chin against a well-curb,
I discerned, as I thought, beyond the picture,
Through the picture, a something white, uncertain,
Something more of the depths – and then I lost it.
Water came to rebuke the too clear water.
One drop fell from a fern, and lo, a ripple
Shook whatever it was lay there at bottom,
Blurred it, blotted it out. What was that whiteness?
Truth? A pebble of quartz? For once, then, something.

Robert Frost

Flying high touch the sky
Going to places I never knew
So goodbye
And hello, long ago.

Feels so good to be soaring
And there must be room for growing
Somewhere else and I'm going
Goodbye.

The days and nights have gone by
The last three whole years have flashed by.

Robert Lamm

You're about to take a giant step forward into your future. We think we can make it the bright one you want it to be at New England Telephone. With a job that's every bit as big as your ambition. You see, we need people. With all kinds of talents. And especially, people who really want to get going with their future. And want to be rewarded with automatic raises. If you want a job and a future that's tailored to your talent... along with unusually generous fringe benefits, stop in and see your guidance counselor. Ask when and where you can apply for an interview with the people who want to make your future as happy as you want it to be.

All sunny skies would be too bright,
All morning hours mean too much light,
All laughing days too gay a strain;
There must be clouds, and night, and rain,
And shut-in days, to make us see
The beauty of life's tapestry.

CONGRATULATIONS FROM YOUR 108 YEAR-OLD
NEIGHBOR

Yes, we've been a nationally known knitwear manufacturer for over a century, but we think young—young enough to truly appreciate the thoughts and talents of the "now" generation. Everyone at Carter's including these recent Needham High School graduates offers you his best wishes for success and happiness in the years ahead.

If you're starting your career now, perhaps you'd like to be a part of the Carter's team. Call Eliot Olsen at 444-7500. He'll be glad to show you around and tell you about our on-the-job training, good pay and benefits which include tuition aid. And think of all the time and money you could save by not commuting!

“You only go around once in life,
so you have to grab for all the gusto that life has to offer.”
Schlitz

There is no need to encourage the members of the Class of '74 to always search for the better things in life. This is but one last tribute to '74, hoping that you will always have the desire to grab each and every sip of gusto that life has to offer.

1973-1974 S.A.C.

It's a Big Wide Wonderful World...

Judging by the headlines, the problems of the world seem to be increasing.

Pollution, war, disease, poverty, racism, crime, injustice and a thousand other specters haunt our lives and beat away on the drums of despair.

And yet, in the midst of it all, life flourishes. Somehow, there is still love, and happiness, and beauty, and all the other good things.

Best of all, there are the millions and millions of people who still care about our world and who are doing whatever they can to make it better--helping others, respecting the environment, speaking out when they think something's wrong, helping to preserve what is good, and to change what is not.

Because of them, it's still a big wide, wonderful world. With your help, it always will be.

Don't let the headlines beat you down. Find the good things and make them better.
